This is an essential text for naturopathic medical students and clinical practitioners pursuing complementary and alternative treatments for endocrine disorders and imbalances -- diabetes, hypothyroidism, adrenal exhaustion, impotence, menopause, and other metabolic disorders. The book features three sections: a textbook geared to medical college curriculum; a clinician's handbook of diagnostic and therapeutic protocols; and a selection of recent clinical studies and literature reviews by other renowned physicians, notably Alan R. Gaby (MD), John Lee (MD), Gregory Kelly (ND), Zoltan Rona (MD), Denis Wilson (MD), and Abram Hoffer (MD). This collaboration between leading medical and naturopathic doctors makes Fundamentals of Naturopathic Endocrinology uniquely valuable for all healthcare professionals. Fully illustrated, with extensive references, featuring case studies from Dr Friedman's medical files.
