Niklas Luhmann: Law, Justice, Society (Nomikoi Critical Legal Thinkers) Andreas Philippopoulos-Mihalopoulos

Niklas Luhmann: Law, Justice, Society presents the work of sociologist Niklas Luhmann in a radical new light. Luhmann's theory is here introduced both in terms of society at large and the legal system specifically, and for the first time, Luhmann's texts are systematically read together with theoretical insights from post-structuralism, deconstruction, phenomenology, radical ethics, feminism and post-ecologism. In his far-reaching book, Andreas Philippopoulos-Mihalopoulos distances Luhmann's theory from its misrepresentations as conservative, rigorously positivist and disconnected from empirical reality, and firmly locates it in a sphere of post-ideological jurisprudence.

The book operates both as a detailed explanation of the theory's concepts and as the locus of a critique which brings forth Luhmann's radical credentials. The focal points are Luhmann's concept of society and the law's paradoxical connection to justice. However, these concepts are also transgressed in order to show how the law deals with the illusion of its identity, and more broadly how the theory itself deals with its limitations. This is illustrated by examples drawn from human rights, constitutional theory and ecological thinking. On the whole, *Niklas Luhmann: Law, Justice, Society* serves both as an introductory text and as a critical response to Luhmann's theory, and is recommended reading for students and researchers in sociology, law, social sciences, politics and whoever is interested in seeing the influential work of Niklas Luhmann from a critical new perspective.
