Waking Maya: What if global transformation started within the human mind? Warren Goldie

When 22-year-old Maya Burke digs up an old journal written by her father, a man she has never met, what she finds is a plan for a spiritual journey created specifically for her. As she explores its teachings, she is catapulted onto a cross-country adventure, and is swept up into a world of visions, vortexes, secret government spying programs, and a spiritual underground that has revived an ancient meditation practice that may literally change the world. Waking Maya is a thrilling, wisdom-packed quest to understand the deepest principles of our reality.
