Bioethics and Moral Content: National Traditions of Health Care Morality: Papers dedicated in tribute to Kazumasa Hoshino (Philosophy and Medicine)

This volume explores the plurality of moral perspectives shaping bioethics. It is inspired by Kazumasa Hoshino's critical reflections on the differences in moral perspectives separating Japanese and American bioethics. It offers a rich perspective of the range of approaches to bioethics and brings into question whether there is unambiguously one ethics for bioethics to apply.
