DotNetNuke For Dummies Lorraine Young, Philip Beadle, Scott Willhite, Chris Pattera

Do you want to develop Web sites without the help of a programmer? Lucky for you there's DotNetNuke, a content management system that allows you to build and maintain dynamic Web sites just by using a Web browser.

"DotNetNuke For Dummies" helps you get down to business and shows you how to create a user-friendly Web site. You'll find out how you can build and manage a flexible, versatile site with all the advantages an open-source application offers, use convenient modules, build a community, and save some money at the same time. This plain-English guide lets you discover how to: Install, run, and troubleshoot DotNetNuke
Change and customize portal settings
Add and manage pages on your site
Make your site look professional
Deliver contents with Text/HTML
Add news feeds, online surveys, and banners
Interact with visitors through blogging, feedback comments, and forums
Create an e-business
Customize the look of your site with exciting components

This book features cool new modules that will meet every Web site's need, both commercial and personal. With "DotNetNuke For Dummies, " you'll get up to speed with this wonderful online tool and create your own corner of the World Wide Web!

From reader reviews:

Rhonda Yowell:

Inside other case, little individuals like to read book DotNetNuke For Dummies. You can choose the best book if you love reading a book. So long as we know about how is important a book DotNetNuke For Dummies. You can add expertise and of course you can around the world with a book. Absolutely right, since from book you can know everything! From your country until finally foreign or abroad you can be known. About simple factor until wonderful thing you could know that. In this era, we could open a book or searching by internet system. It is called e-book. You should use it when you feel bored to go to the library. Let's go through.

Christine Flint:

What do you with regards to book? It is not important together with you? Or just adding material when you want something to explain what the ones you have problem? How about your time? Or are you busy individual? If you don't have spare time to do others business, it is make one feel bored faster. And you have time? What did you do? Everybody has many questions above. They have to answer that question since just their can do in which. It said that about book. Book is familiar in each person. Yes, it is proper. Because start from on pre-school until university need this kind of DotNetNuke For Dummies to read.

Alice Billups:

The event that you get from DotNetNuke For Dummies is the more deep you digging the information that hide in the words the more you get interested in reading it. It does not mean that this book is hard to recognise but DotNetNuke For Dummies giving you excitement feeling of reading. The article author conveys their point in specific way that can be understood by means of anyone who read that because the author of this e-book is well-known enough. This specific book also makes your vocabulary increase well. Making it easy to understand then can go along with you, both in printed or e-book style are available. We advise you for having this DotNetNuke For Dummies instantly.

June Ortiz:

Is it an individual who having spare time in that case spend it whole day by simply watching television programs or just lying on the bed? Do you need something new? This DotNetNuke For Dummies can be the answer, oh how comes? The new book you know. You are so out of date, spending your spare time by reading in this brand new era is common not a geek activity. So what these books have than the others?
