An unconventional love story set in the magical city of London, I'll Love You Forever is about two people alone in the world who find each other despite all the obstacles in their way. After a string of failed relationships Kate Gray takes a chance at a new life and a new job in London. But that new life is way more complicated than she could have ever imagined, because the hotel she's managing is being haunted by the ghost of a World War I pilot. Ignoring him, and her growing attraction to him, is turning out to be a lot harder than it should be. Alone in a new city, faced with less-than-ideal romantic prospects, Kate is about to find out that life can be better than she ever imagined. In his day, Captain Miles McBride was the golden boy of the Royal Air Force. A fighter pilot with more kills to his credit than any man before or since Miles has spent his afterlife as a ghost wandering the streets of his beloved London, weighed down by the guilt. Surrounded by London's famous residents of the past, Miles finds his only consolation in his friendship with former Prime Minister Winston Churchill. When Katie walks into his bedroom and his life, Miles isn't prepared for the changes that she's about to bring.
