An earthquake opens a path to a land hidden for millions of years. Under the guise of finding cryptid animals, Ace Corporation sends Alex Klasse, a Cryptozoologist and university professor, his associates, and a band of mercenaries to explore the Lost World of Patagonia. The crew boards a nuclear powered All-Terrain Tracked Carrier and takes a harrowing ride into the unknown. The expedition soon discovers prehistoric creatures still exist. But the dangers won't prevent a sub-team from leaving the group in search of rare jewels. Tensions run high as personalities clash, and man proves to be just as deadly as the dinosaurs that roam the countryside. Lost World of Patagonia is a prehistoric thriller filled with murder, mayhem, and savage dinosaur action.
