After Jacy makes a run for it, Tom is left alone to sip tea in her apartment. Until he senses danger that is. Once his panther instincts kick in, he pounces on the scene to rescue the witch that just stole his car. Little does he know, she saw more in her semi-conscious state than he expected, and she's madder than a hellcat.

After being released from the hospital, she springs some surprises on him of her own. Everything is going according to plan until the real world catches up with her, and she has a serious decision to make. One choice will doom Majestic forever, while the other will at least give it a fighting chance, albeit in a capacity that she doesn't like.

All of the lies, conspiracies, and plots come together and reveal themselves once and for all. You never know what's going to happen when a panther and a witch are at a rival of wills.

Will the panther be able to save himself from the upheaval the witch has in store for him? Or will love win out, **leaving their homes and workplace in harmony?**
